Spearfishers,

The USFA takes great pride in upholding its core values. Protect Promote and Preserve spearfishing for now and into the future.

The USFA takes a strong stance on intentional and serious breaches of fisheries rules and regulations that bring spearfishing into disrepute.

We will now be asking new members if they have been convicted or fined of a significant fisheries offence in the past two years during the online application process and refusing the privilege of membership for up to 2 years.

Thank you for your time,

Scott Williams & Simon Horvath
President Vice President

USFA - Underwater Skindivers and Fishermans Association
